The steps may slightly vary depending on the car design.

REPLACEMENT: POLLEN FILTER – OPEL ASTRA H SALOON. TOOLS YOU MIGHT NEED:

- Drive socket # 5.5
- Torx bit T20
- Ratchet wrench

BUY TOOLS

Replacement: pollen filter – Opel Astra H saloon. AUTODOC experts recommend:

- Replace the cabin filter at least once every six months, in early spring and autumn seasons.
- Follow the terms, recommendations and requirements of the part operation provided by the manufacturer.
- If the air flow into the cabin has sharply reduced, replace the filter before a scheduled maintenance.
- Please note: all work on the car – Opel Astra H saloon – should be done with the engine switched off.

CARRY OUT REPLACEMENT IN THE FOLLOWING ORDER:

1. Move the passenger seat fully backwards.

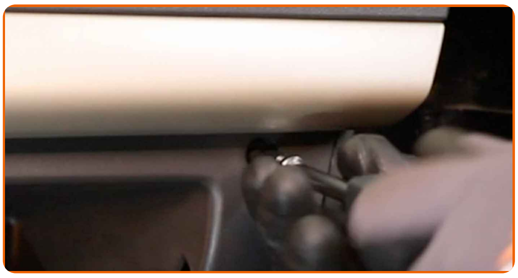

2. Spread a cloth under the cabin filter cover to protect the interior upholstery from getting dirty.

3. Open the glove box.

4 Unscrew the glove box fastening screws. Use Torx T20.

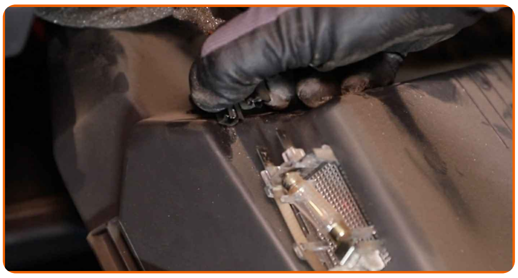

5 Remove the glovebox.

Replacement: pollen filter – Opel Astra H saloon. Tip from AUTODOC:

- Be careful to avoid damaging the glove compartment fasteners.

6 Unplug the glove box light connector.

7 Unscrew the fasteners of the passenger side kick panel.

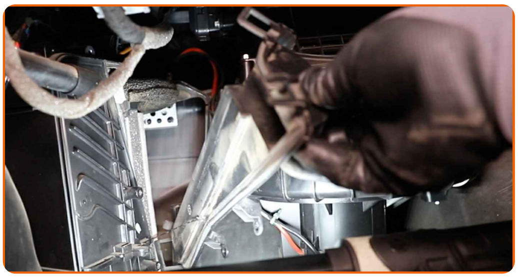

8 Remove the cover under the glove box.

9 Unscrew the fasteners of the cabin filter housing cover. Use a drive socket #5.5. Use a ratchet wrench.

10 Remove the cabin filter cover.

11 Remove the cabin filter.

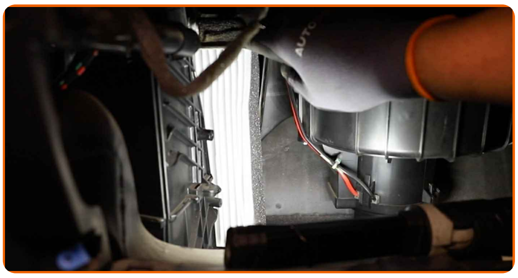

Replacement: pollen filter – Opel Astra H saloon. Tip:

- Do not attempt to clean and reuse the filter - it will affect the quality of air cleaning inside the car.

12

Install the cabin filter to its mounting seat.

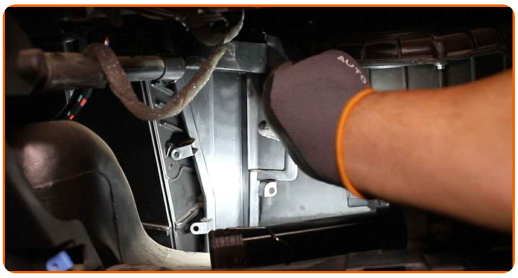

Replacement: pollen filter – Opel Astra H saloon. Tip from AUTODOC:

- Follow the air flow direction arrow on the filter.
- Check out the correct location of the filter element. Do not skew.
- Attention! Use quality filters – Opel Astra H saloon.

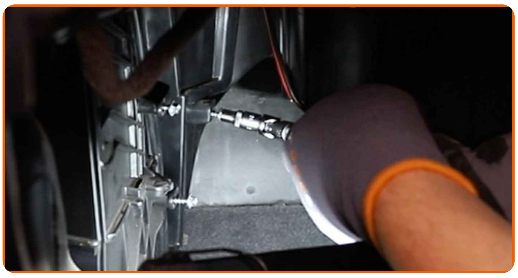

13

Install the filter cover.

14

Screw in the fasteners of the cabin filter housing cover. Use a drive socket #5.5. Use a ratchet wrench.

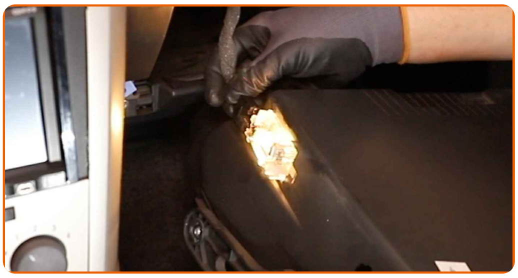

15 Install and secure the cover under the glove box.

16 Screw in the fasteners of the passenger side kick panel.

17 Plug in the glove box light connector.

18 Install the glove box.

19 Screw the glove box fastening screws. Use Torx T20.

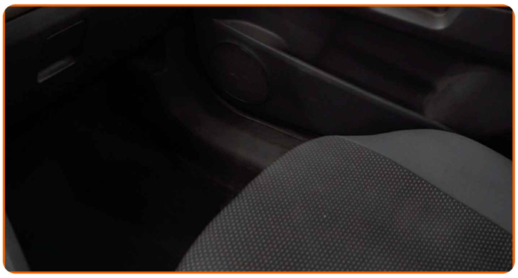

20 Close the glove box.

21 Remove the cloth.

22 Return the passenger seat to its initial position.

23 Switch on the ignition.

24 Switch on the air conditioning system. This is necessary in order to make sure that the component operates properly.

25 Switch off the ignition.

WELL DONE!
